MACHINE-MADE COTTAGES

Some of the
Designs

GEO. HUDSON & SON Ltd.
REGENT ST., REDFERN, SYDNEY

INTRODUCTION

WE have pleasure in submitting a new Catalogue of Machine-made Cottages. The former issues have proved so useful to our clients, that we expect this book, with an increased number of plans to select from, will be of still greater service.

This Catalogue contains nothing like all the designs we have, and is merely a summary of some of the buildings we find most likely to serve the purpose of a thoroughly substantial, pretty home at a minimum of cost. We gladly furnish any designs on receipt of information as to the needs of prospective purchasers; and we promptly supply Plan and Quotation to those who submit to us a rough ground plan of the buildings they feel will be most suitable for their requirements.

Where MATERIALS are quoted we do not include Bricks, Lime or Cement, Paint, Chimney Pots.

Where BUILDING ERECTED is quoted, we do include Bricks and Paint, Lime and Cement, but we assume the site is level, easy of access, and not far from our Works.

We erect the Buildings anywhere at Sydney rates, plus freights, fares, cartages, and the time lost by the Artisans travelling to and from the site, and the extra wages paid for working away from Sydney,

Municipal permission and all the supervision of work and engagement of workmen is undertaken by us when we agree to erect a cottage, so that the Customer has no further anxiety. We finish the building, with the exception that we do not lay on Gas nor Water, nor connect with the Sewerage.

Stove is not included, excepting in buildings of five (5) rooms and over.

Copper, Tubs, Baths and Outhouse are included only where shown in the plan or mentioned in quotation.

Prices are subject to fluctuation without notice.

GEO. HUDSON & SON Ltd.

REGENT STREET, REDFERN.

Please do not destroy Catalogue.

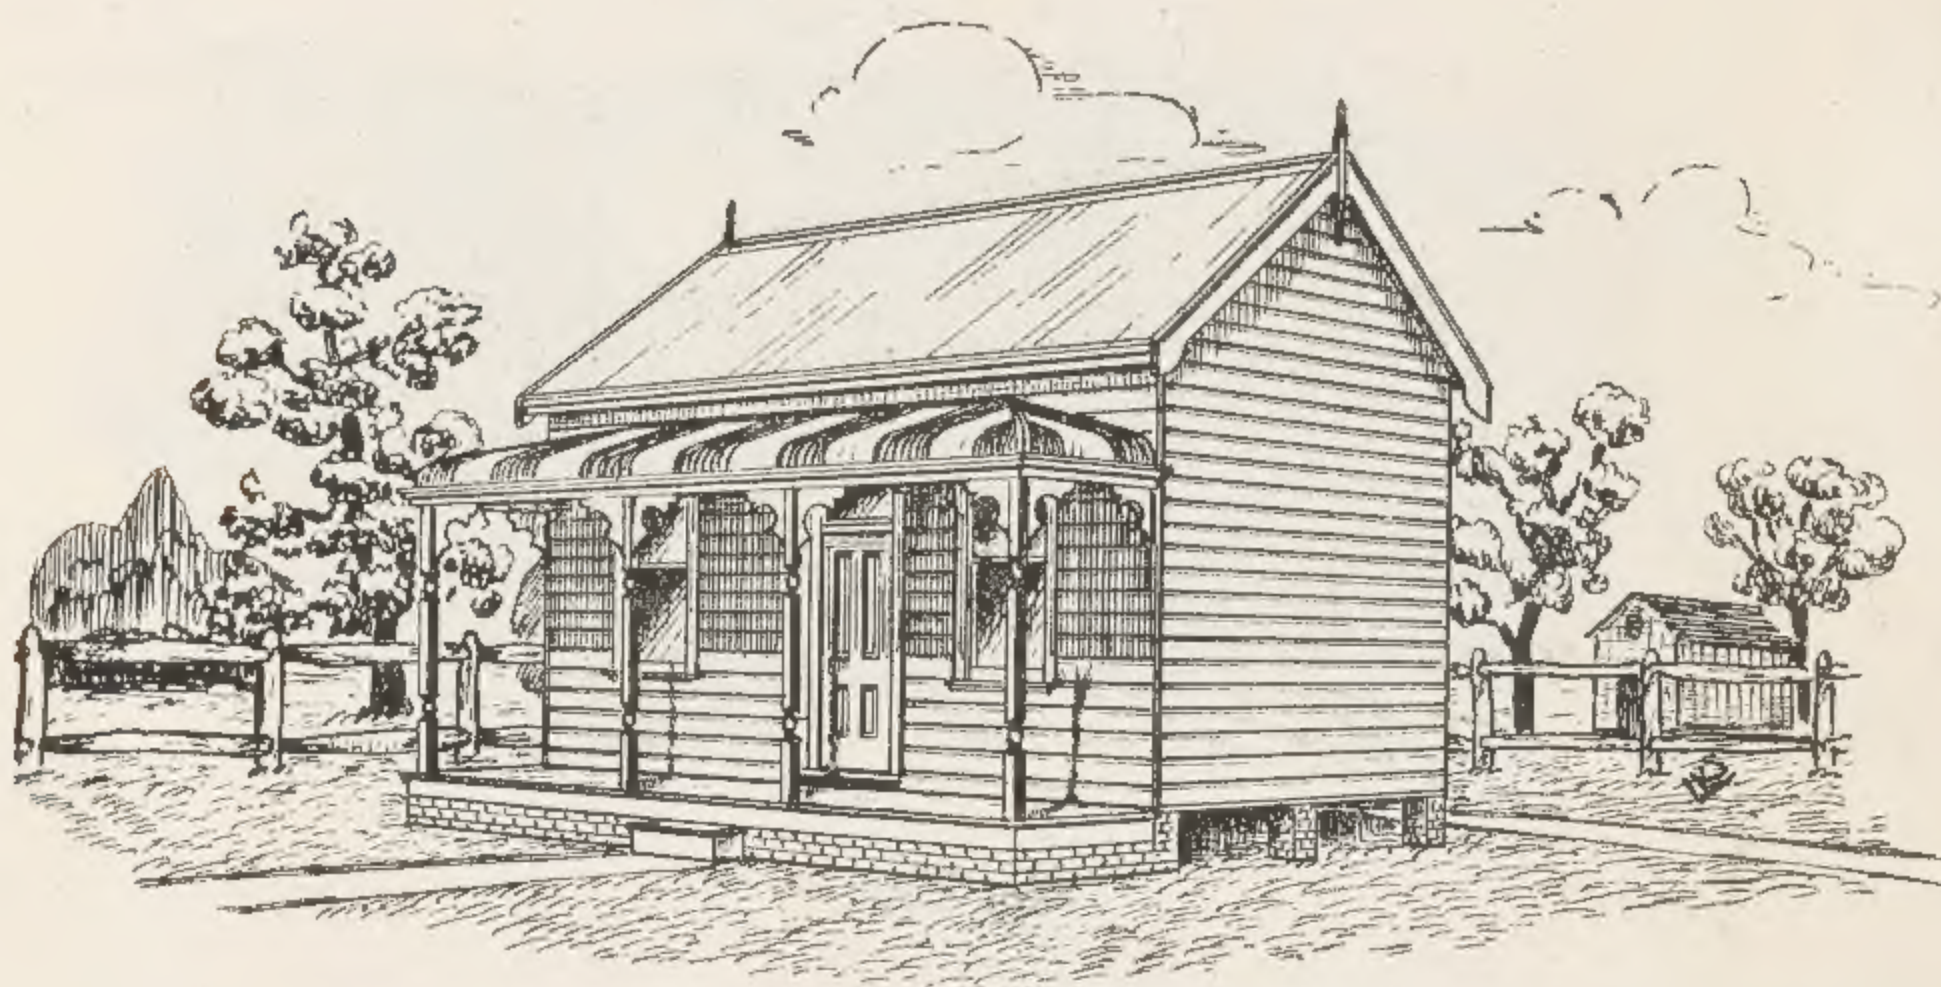

To state the number or letter is sufficient.

MACHINE-MADE HOUSES ERECTED COMPLETE ANYWHERE

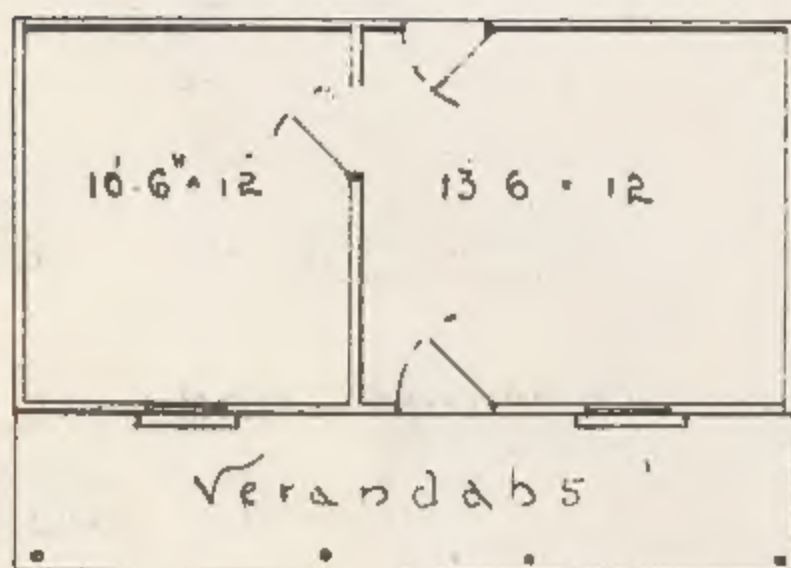

A Two-Roomed Cottage
